REPORT BY THE DIRECTORS

OF THE

DUNDEE ROYAL LUNATIC ASYLUM

TO THE

ANNUAL GENERAL COURT,

18TH JUNE 1900.

ROYAL COLLEGE OF PHYSICIANS OF LONDON LIBRARY 27 AUG

THE DIRECTORS beg to submit their Eightieth Annual Report:—

On 6th March last the Committee of Management exposed the Superiorities of Five Lots of ground, by Public Roup, at the Upset Price of 30 years' purchase. All the Feu-duties were sold at that price, except one Lot, which brought £10 more than the Upset Price, the total sum received being £5,910. The only portion of the Old Asylum Ground still unfeued is a Lot of ground extending to fully 38 poles, situated at the corner of Baldovan Terrace and Park Avenue.

As mentioned in last Annual Report, it was resolved to appeal to the Secretary for Scotland against the Order and Regulations erecting the Parish of Dundee into a separate Lunacy District. The Secretary for Scotland, however, confirmed and approved of the said Order and Regulations.

The attention of the Directors having been called to the falling off in the number of Patients sent to the Asylum by the Dundee Parish Council, causing a considerable diminution in income, the Committee of Management had a Conference in September last with a Committee of the Parish Council, which, unfortunately, did not lead to any increase in the number of Patients.

This having been reported to the Quarterly Court of the Directors, held on 16th October last, the Directors remitted to the

Committee of Management to consider the whole question of the Rates charged for Pauper Patients, and report to another meeting of the Directors.

The Committee of Management accordingly, having carefully considered a Memorandum prepared by the Treasurer as to the Cost of Maintenance of Pauper Patients for 1898-9, were of opinion that the Rate of Board for Pauper Patients should be increased by 1/9d. per Patient per week, and resolved to recommend accordingly.

At a Special Meeting of the Directors, held on 14th November last, this recommendation of the Committee of Management was unanimously approved of, and the Directors remitted to the Committee of Management to take the necessary steps for carrying the resolution into effect.

Notice was accordingly given on 15th November last to the Dundee Lunacy District Board that the Rate of Board charged for Pauper Patients from that District would be raised from 11/9d. to 13/6d. per week, and to the Forfar Lunacy District Board that the Rate of Board charged for Pauper Patients from that District would be raised from 11/- to 12/9d. per week, three months from the date of the said Notice. Both the Dundee Lunacy District Board and the Forfar Lunacy District Board having declined to accede to the proposed increase, the matter was referred in January last to the General Board of Lunacy for decision in terms of the Contracts. The General Board, having heard parties on the 16th of February last, intimated their decision on the 30th of April that 12/6d. per week should be the Rate chargeable for all Pauper Patients, whether belonging to the Forfar Lunacy District or the Dundee Lunacy District, and that as from and after 15th February last. That rate is now in force.

The General Board of Lunacy also intimated on the 21st of March last that the recent division of the former Forfar Lunacy District necessitated new Contracts for the accommodation of Pauper Patients being entered into, and that they had resolved that the existing Contracts shall terminate twelve months after the date of this intimation.

At the Quarterly Court of the Directors, held on 16th April last, it was remitted to the Committee of Management, along with Ex-Lord

Provost M'Grady and Bailie Doig, to consider the communication from the General Board of Lunacy as to the rearrangement of new Contracts, to confer with other Asylums and Lunacy Boards as to a territorial division of the County and the terms of new Contracts, also whether any change in the Constitution of the Dundee Asylum Board is advisable.

The erection of the new Private Asylum is proceeding rapidly. The Architect has furnished the following Report of the progress of the Work :—

"The Mason Work of the front and both wings is finished. The walls of all the back buildings in the centre are founded. The west wing is ready for the internal wood finishings, and the east wing is entirely roofed, and fully half slated."

The late Mr David Pirie, Painter, Dundee, bequeathed to the Asylum a Legacy of £100, which was paid to the Treasurer by his Trustees in July last.

From the Treasurer's Report it will be observed (1) that the Income of the Institution from the Board of Patients, &c., was £13,729. 7s. 11d., and the Expenditure £14,827. 14s. 10d., shewing a deficiency of £1,098. 6s. 11d. ; (2) that there has been received as Annuities and Donations £109. 13s. 4d. ; and (3) Profit on the Farm, £426. 10s. 10d. It will be observed that the Profit from the Farm this year amounts to £426. 10s. 10d. The Directors are indebted to Mr W. F. Bell for the attention which he has bestowed on the Farm during the past year.

The Commissioners of Lunacy twice visited the Asylum and Gray House during the year.

The following is an Extract from Dr. Fraser's Report, dated 6th July 1899 :—

"The Asylum was found scrupulously clean, and in good order. The repainting and repapering of the Female side have been completed, and good progress is being made in this direction on the Male side. The Wards have consequently a brighter and more cheerful appearance.

Considerable progress has been made in the building of the new separate house for Private Patients. Its site is an admirable one, and the building promises, when completed, to be most pleasing externally, and very satisfactory in regard to its internal arrangements. It is fully expected that it will provide for Patients of the intermediate class in a suitable and liberal manner.

Gray House was, as usual, found in a highly satisfactory condition. It is a most useful and important part of the Institution. Marked mental improvement has frequently ensued as a result of a change to Gray House, and of the advantages and comforts which the Patients enjoy there.

The Patients in the Main Asylum were, with one or two exceptions, quiet and orderly in behaviour. There can be no doubt that this freedom from irritability and excitement is mainly due to the relief from overcrowding.

An improvement was observed in the clothing of the Female inmates. It was tidier and neater than at any previous visit. The Meals are also served in a more orderly manner, and the dining tables are now decorated with plants. The dinners during the visit were well cooked and abundant. The great majority of the Patients were seen out of doors either on the Terrace or employed on the Asylum Farm. Due attention is given to the outdoor recreation of the inmates and staff. A cricket match was in progress on one of the days of the visit."

Dr. Macpherson also visited the Institution on 24th and 25th January last. The following is an Extract from his Report :—

"The average physical condition of the Patients was quite satisfactory. On the first day of the visit the dinner of the Pauper Patients consisted of Scotch broth, bread and suet pudding. The meal was well cooked, and distributed in sufficient quantities to the Patients. The personal clothing of the Patients was suitable in every respect, and no exception could be taken to its quality or state of repair. In one of the large female wards there was considerable noise and excitement, but on the whole the Patients were quiet and orderly. Any complaints that were made had reference to the subject of confinement in the Asylum, but most of those so complaining were, without question, properly detained. The Medical

treatment of the sick, and of the recent and acute cases, attracted special and favourable attention. At each bedside in the hospital wards there was a well-kept clinical chart, and the clinical records of the cases are systematically and carefully written. The case books contain an account of the history and progress of the cases of all the Patients in the Asylum.

The various, wards, dormitories and single rooms inhabited by Patients were in good order and very clean. The day rooms were properly heated and ventilated, and in those of the dormitories which, owing to their large size or situation, required heating, fires were burning in the afternoon. The beds were comfortable and neatly arranged, and their coverings wherever examined were found sufficient for the season of the year.

The Patients in Gray House were found surrounded with all the comforts and advantages of a large country house, and the state of cleanliness and good order of this branch of the Institution left little to be desired. It is understood that the building of the new block for Private Patients is making satisfactory progress."

The Medical Superintendent's Report shews that on 19th June last there were 418 Patients in the Asylum—175 Males and 243 Females; while there are at present 402, that number being made up of 170 Males and 232 Females, 105 having been admitted during the year, 46 having recovered, 41 having died, 9 having been removed to the Lunatic Wards of Poorhouses, and 11 to other Asylums.

AT THE

ANNUAL COURT OF DIRECTORS

OF THE

DUNDEE ROYAL LUNATIC ASYLUM,

HELD IN THE TOWN HALL OF DUNDEE,

ON MONDAY, 18TH JUNE 1900.

Mr A. B. GILROY IN THE CHAIR:

The SECRETARY read the Annual Report of the Directors.

The Chairman moved that the Report now read be adopted as the Eightieth Report of the Institution, which was agreed to.

Dr. RORIE read the Medical Report.

It was resolved that the Annual Report of the Directors, such portions of the Medical Report as may be selected by the Committee of Management, and the Abstract of the Income and Expenditure for the past year be circulated as usual.

MEDICAL REPORT,

18TH JUNE 1900.

On the 19th June 1899, the date of last Annual Meeting, the number of patients on the Registers of the Asylum was 418. Of these, 87 were private patients, namely, 42 males and 45 females; and 330, namely, 133 males and 197 females, were paupers.

In addition, a lady was residing as a voluntary patient in Gray House, with the permission and approval of the General Lunacy Board, but such cases are not regarded as Insane Persons under the Statutes.

105 patients have since been admitted, namely, 49 males and 56 females. Of these, 21 were private patients, that is, persons the expense of whose maintenance was defrayed by their relatives or friends; and 84 were patients paid for in whole or in part by parish rates. As has been the case for many years, the great proportion of the latter was admitted from the City of Dundee, but 8 were also received from other Parishes, namely, from Glamis, Monifieth, Arbroath and St. Vigeans, Mains and Strathmartine, and Tealing. No patient has been refused admission, and with the exception of 4 cases, all the pauper patients belong to Forfarshire. Another voluntary patient has also been received at Gray House.

The total number under treatment has consequently been 523 in all, being 49 less than the corresponding number for last year. Of these, 46 have been discharged recovered; 30 have left the Asylum more or less improved; in 4 instances but little improvement had been effected; and 41 have died. 11 patients were transferred to other Asylums, chiefly pauper cases found after admission to be chargeable to Parishes beyond Forfarshire, while 9 were removed to the Lunatic Wards of the Dundee Poorhouses.

There remain, therefore, at the present date 170 males and 232 females, total 402, being 16 less than the corresponding

number for last year. The number of private patients continues, however, steadily to increase, 44 males and 46 females (in addition to the 2 voluntary patients) being at present resident.

The proportion of recoveries, calculated on the number of patients admitted, is therefore 43·81 per cent.; while that of the deaths, calculated on the whole number under treatment, is 7·84 per cent. The physical condition of the patients on admission has been very similar to that of former years. The forms of mental illness of those admitted, causes of death, &c., will be found detailed at length in the appended tables, and do not show any departure from the records of previous years worthy of notice.

No accident or untoward event of importance has occurred during the past twelve months.

It will be seen from the above statistics that the number of pauper cases received into the Institution continues steadily to fall; thus, while 160 rate-paid patients were admitted in 1895-6, 146 were received in 1896-7, 115 in 1897-8, 112 in 1898-9, and only 84 during the past year. This has arisen principally in connection with Dundee Parish, 34 patients having been sent to the Montrose Asylum from that Parish during the year ending 14th May. The removal of the patients to so great a distance from their homes must prove not only a great hardship to them, but also to their relatives, as in many instances it will amount to a complete prohibition of all visitation, and of that occasional intercourse so often beneficial, and at all times gratifying alike to parents and relatives. The practice is defended on the grounds of the necessity of securing an equal division of the pauper patients of Forfarshire between the two Asylums of Montrose and Dundee, but when this is accompanied by such results, it only proves the unsatisfactory nature of present contracts.

The Classes for the training of the Nurses and Attendants have been continued as usual during the winter months, the number of persons present being generally about 40. At the May Examinations four candidates obtained the certificates of proficiency in Nursing attending on the Insane, granted by the Medico-Psychological and Association of Great Britain and Ireland, making 36 in all who have been found entited to this distinction during the past eight years.

The Classes in connection with the University College are carried on as usual during the summer months.

The Building for Private Patients is rapidly approaching completion, and when finished will provide comfortable accommodation for such cases. It will not only supply a want which has been much felt in the past, but will put the Institution in a position to meet any demand that may be made upon it for years to come for the admission of patients of whatever class or social position.

To make the Buildings complete, a separate Chapel has still to be erected. The Religious Services, which prove so beneficial to the inmates, continue to be conducted in the largest dayroom on the female side of the house. This can, however, only accommodate about 180 persons, while fully two-thirds of the whole population could be present were a proper building provided.

In conclusion, I beg to direct attention to the hearty and efficient assistance I have received from all the Officers of the Asylum in the discharge of my duties during the past year.

JAMES RORIE, M.D.

LIST OF

Officers, Nurses, and Attendants who, after examination, have been granted the Certificate of the Medico-Psychological Association for Proficiency in Nursing and Attending on the Insane :—

1892. Thomas Boyd.
James Inches.
Charles Chalmers.
Jane S. Alison.
Joan M. Finlayson.
Jane M'Garrock.
Sarah M'Garrock.
Jessie Shand.

1893. *Mr William Mitchell.*
Alexander Galbraith.
Alexander Soutar.
Francis Dick.
James Nicholl.
John Simpson.
James Stewart.
William Walker.
Mary Swanson.

1896. Miss F. M. Mitchell.

1896. Miss A. M. Aitken.
James Joss.
Christina Fraser.
Caroline Gavine.
Maggie Mann.
Bella Shephard.

1897. Charlotte Samson.
Isabella M'Kenzie.

1898. Hannah M'Sweeney.

1899. *Miss A. L. Irvine.*
Rosina Aitkinson.
Alice M'Donald.
George High.
Samuel Stevenson.

1900. *Johan Shepherd.*
Nellie Wardhaugh.
Isabella P. Suttie.
Peter Innes.

N.B.—Those whose names are in *italics* are still in the service of the Asylum.

STATISTICAL TABLES

FOR THE YEAR ENDING 18TH JUNE 1900

(The Year ending on the Third Monday in June, agreeable to Charter).

TABLE I.

Showing the Admissions, Re-admissions, Discharges, and Deaths during the Year ending 18th June 1900.

	Males.	Females.	Total	Males.	Females.	Total.
In the Asylum on 19th June 1899	...	...	...	175	243	418
Cases admitted—						
First admissions	39	44	83			
Not first admissions ...	10	12	22			
				49	56	105
Total cases under care during the year	...	...	...	224	299	523
Cases discharged—						
Recovered	18	28	46			
Relieved	18	12	30			
Not improved	2	2	4			
Cases died	16	25	41			
Total cases discharged and died during the year	...	...	...	54	67	121
Remaining in Asylum, 18th June 1900	...	...	...	170	232	402

Average number resident during the year	171·68	239·39	411·07
Persons under care during the year	223	298	521
Persons admitted ,, ,, ...	48	55	103
Cases transferred to this Asylum from other Asylums	2	2	4
Cases transferred from this Asylum to other Asylums	5	5	10
,, removed to Lunatic Wards of Dundee Poorhouses from this Asylum	9	0	9
,, admitted from Lunatic Wards of Poorhouses ...	1	0	1
,, ,, ,, Ordinary Wards of Poorhouses and Parochial Hospital	2	4	6
,, ,, ,, Police Office	5	5	10

RATES OF BOARD.

The following are the present Rates of Board, subject, however, to such alterations as the Directors shall judge proper, which must necessarily vary according to the state of the funds and the expenses of the establishment. The Board in all cases must be paid quarterly and in advance. Before the entry of a Patient the Board to be paid up for one quarter.

I. For Private Patients.

First Class - - - -	£25	0	0	per Annum.
Note.—This rate is only for special cases, admitted by authority of the Directors.				
Second Class - - -	£40	0	0	per Annum.
Third Class - - -	60	0	0	,,
Fourth Class - - -	90	0	0	,,
Fifth Class - - -	120	0	0	,,
Sixth Class - - -	180	0	0	,,

II. For Pauper Patients (including Clothes, &c.), 12/6d. per week.

When a Patient is admitted, one Quarter's Board, as fixed by the Directors, shall be paid in advance to the Medical Superintendent, and afterwards in advance quarterly to the Treasurer, on the 1st day of January, the 1st of April, the 1st of July, and the 1st of October. No part of any payment in advance, except in the case of paupers, shall be returned, except in special cases, to be judged of by the Committee of Management; and if any Patients who have been removed shall return to the Asylum, they shall be admitted in the same manner as if they had never been in the Asylum, and pay accordingly.

The Patients shall have no claim to remuneration for work done.

Ladies and Gentlemen requiring the benefit of the Institution can be accommodated with commodious apartments, distinct from the other Patients, with a servant if required.
